

Medicare is cutting your access to Brand Name Diabetic Supplies

In the Fall of 2011, Medicare will begin registration for a flawed “competitive bidding” program in your area. Medicare will accept “bids” and whichever companies bid the lowest prices will be able to serve Medicare patients.

The problem is that in the first phase of the program, **Medicare awarded contracts to Inexperienced and Financially Bankrupt companies.** Rates are so low that the “bid winners” cannot provide prescribed, Brand Name Diabetic Supplies. These companies have no ability or intention to serve patients, they only bid low in an attempt to sell their business and bid contracts to other providers, desperate to survive. **Medicare refuses to change this and YOU will be affected.**
